a brilliant history of the land into which more historical and cultural events were crowded than perhaps into any area of equal size for syria has either invented or transmitted to mankind such benefits as monotheistic religion philosophy law trade agriculture and our alphabet

the so called cedar revolution in lebanon triggered by the assassination of the former prime minister rafiq hariri in february 2005 brought to an end three decades of syrian military presence in the country here taku osoegawa challenges the commonly held claim that lebanon and its leaders were simple puppets of the syrian regime during the thirty years characterised as lebanon under syrian hegemony furthermore by investigating lebanon s own reasons for aligning itself with syria syria and lebanon aims to answer the following question which theories of international relations are most relevant or best suited to explain lebanon s relations particularly its bandwagoning with syria from 1970 when the asad regime was established to the present day by focusing on the actions and attitudes

taken by lebanon's political leadership specifically the presidents and prime ministers towards syria osoegawa considers the applicability of the following theories simple realism complex realism constructivism and complex interdependence syria and lebanon also considers the ways in which the relationship between these two central states in the middle east has developed since the syrian withdrawal for example osoegawa looks at the reasoning behind syrian intransigence over the special tribunal for lebanon and hizbullah's weapons and the consequences of the turmoil and violence which syria has experienced since early 2011 this book's analysis is essential not only for the study of the relationship between lebanon and syria but also their impact on political stability in the wider middle east

the complex relationship between syria and lebanon is the political fulcrum of the middle east and has dominated headlines since the withdrawal of french colonial forces from the levant in 1943 one of the great paradoxes of this relationship is how two such very different political systems emerged in what many syrian and lebanese people see as one society at the time of independence it was assumed that only the divide and rule strategies of foreign powers kept the arab peoples artificially separated in this major new book youssef chaitani examines how despite the prevalence of arab nationalism and the regression of imperial interference syria and lebanon became more divided rather than more integrated in the post independence period drawing on untapped sources from the archives of western foreign offices and the local press chaitani uncovers the strategies and motivations of both countries elites during this period and produces conclusions which have major implications for our understanding of arab nationalism as well as the complexities of the syrian lebanese relationship

conflict and intervention in the middle east are not uncommon occurrences yet when civil strife erupted in lebanon in 1975 the events

that followed were unusual indeed unlike most patterns of intervention syria displayed remarkable tactical flexibility by first intervening on behalf of the rebels its traditional allies then shifting its allegiance mid war to the lebanese incumbents also whereas most intervention scenarios end with a process of decommitment syria eventually occupied parts of lebanon to become an enduring military entity there delving into primary syrian and lebanese sources weinberger unravels the history competing factions religion politics and culture of the region and presents an intriguing and complex portrait of intervention by a regional power

the 'syria idea' emerged in the nineteenth century as a concept of national awakening superseding both arab nationalism and separatist currents looking at nationalist movements ideas and individuals this book traces the origin and development of the idea of syrian nationhood from the perspective of some of its leading pioneers providing a highly original comparative insight into the struggle for independence and sovereignty in post 1850 syria it addresses some of the most persistent questions about the development of this nationalism chapters by eminent scholars from within and outside of the region offer a comprehensive study of individual syrian writers and activists caught in a whirlwind of uncertainty competing ideologies foreign interference and political suppression a valuable addition to the present scholarship on nationalism in the middle east this book will be of interest to many professionals as well as to scholars of history middle east studies and political science

this groundbreaking study examines the connection between what are arguably the two most distinguishing phenomena of the modern world the unprecedented surges in global mobility and in the creation of politically bounded spaces and identities jose c moya author of *cousins and strangers* an excellent collection of studies connecting transnational migration to the construction of national identities

highly recommended luis roniger author of transnational politics in central america the importance of this collection goes beyond the confines of one geographic region as it offers new insight into the role of migration in the definition and redefinition of nation states everywhere fraser ottanelli coeditor of letters from the spanish civil war this volume has set the standard for future work to follow daniel masterson author of the history of peru between the mid nineteenth and mid twentieth centuries an influx of europeans asians and arabic speakers indelibly changed the face of latin america while many studies of this period focus on why the immigrants came to the region this volume addresses how the newcomers helped construct national identities in the caribbean mexico argentina and brazil in these essays some of the most respected scholars of migration history examine the range of responses some welcoming some xenophobic to the newcomers they also look at the lasting effects that jewish german chinese italian and syrian immigrants had on the economic sociocultural and political institutions these explorations of assimilation race formation and transnationalism enrich our understanding not only of migration to latin america but also of the impact of immigration on the construction of national identity throughout the world contributors jürgen buchenau jeane delaney nicola foote michael goebel steven hyland jr jeffrey lesser kathleen lópez lara putnam raanan rein stefan rinke frederik schulze

sectarian conflict foreign interventions and a constant search for inter communal compromise have been dominant themes in lebanese

history this book draws together for the first time the entire corpus of national pacts and constitutional texts which have demarcated the major ruptures of lebanese history in his introduction hanna ziadeh explains how a constant state of communal tension regularly led to sectarian conflict
